

# COVID-19 LIVING IN THE NEW NORMAL WEEK 4

08/04/20

Brussels

Our Mission at Havas is to **make a meaningful difference** to brands, businesses and people.

Ending our communication out of fear of being seen as opportunistic is not an option.

We need to look for the pain points where brands can make small changes that really help.

How can brands add a meaningful difference to people's lives and to the society in this hard time?

Optimism for ourselves, for media and brands in times of COVID19

**#BRANDOPTIMISM** 

# **HAVAS TALKS**

Chaque semaine, mes collègues et moi relevons le défi de partager avec vous nos analyses, notre vision, notre interprétation de ce qui se passe dans la société, dans nos médias, au sein des marques.

Si faire du sens doit plus que jamais être au coeur de la mission des marques ét de leur partenaires... L'enthousiasme et l'optimisme sont des murs porteurs. J'ai beaucoup de chance, je suis entourée de collègues et de partenaires particulièrement enthousiastes, optimistes ... et dans le partage. Et c'est justement le partage, de ses ressources, de ses talents, qui est au centre de cette nouvelle édition.

Le partage, car ceci est un produit Village. Un produit créé conjointement avec mes collègues de la création. Le partage, car chaque semaine nous comptons sur nos collègues des autres expertises pour nous informer, nous inspirer, nous challenger.

Et enfin, le partage, car des partenaires m'ont proposée des partenariats qui ont du sens. Plus qu'un échange de bons procédés, un réel apport win-win pour chacun.

Cette semaine, nous avons pu compter sur l'aide de Grégory Piet et de Stéphane Labye de WYNTA Agency pour une analyse psychographique du segment d'audience intéressé et utilisateur de services de livraisons à domicile. Pour aller plus loin, le segment creuse l'affinité avec les supermarchés. Découvrez un aperçu de quelques résultats notre section RETAIL.

Découvrez notre analyse sur les différents acteurs de la mobilité dans la section AUTOMOTIVE & la section MOBILITY. Et enfin, la CULTURE et le SPORT se réinventent dans notre section ENTERTAINMENT. Le tout illustré par notre nouveau motto et des cases dédiés: **#BRANDOPTIMISM**.

Bonne lecture,

Vanessa Sanctorum, Strategy Director – Havas Media Belgium

# **HAVAS TALKS**

Plenty of scientific, political, and economic opinionmakers have already indicated that there will be a pre-COVID19 and a post-COVID19 period.

While mostly talking short-term, like 'when will we be able to shake hands again?', 'when will my kids go back to school?', 'when can I meet my family and friends again?' and of course, the unprecedented financial impact for basically everyone (people in horeca and entertainment industries, freelancers, employees, and companies), as long the lockdown lasts; they are also predicting more long-term consequences even after everything has gone back to 'normal'.

Aside from a recession that could last well into 2021. Long-term behavioural changes are interesting phenomena. Maybe the welcoming kiss on the cheek (or two, or three, or even five), unless between really close friends, will disappear. Or possibly a wider personal space becomes our new instinct, like the 1.5m we have to keep now.

With everybody spending a significant amount of time inside, either alone, or surrounded by a small group of direct family or roommates (millennials in the 21st century, am I right?), we've already seen a big change in how people are consuming media. There's a big increase in people watching news (and funnily enough, they seem to choose channels that are considered more qualitative, or serious, or trustworthy), visiting news websites, etc.

It should also come as no surprise that we also see a big shift in digital media: people spend more time online. Although most of the platforms are very careful when it comes to publishing data on visits and time spend directly, our data clearly indicates that people are spending more time on social media apps and websites (and I'm including video and other messaging apps) and video platforms like YouTube.

But what about new 'new media'? Well, we expect the same changes here. People are turning more and more to new forms of entertainment: video-streaming platforms like Twitch are on the rise, as are new social platforms like TikTok (although that had already started well before the corona crisis). But there are others: people are also spending more time gaming, mobile, PC and console! While traditionally considered a kids' hobby, I have plenty of friends of that purchased a new console (online), installed Steam, or dusted off the old Nintendo.

And this could also be a trend for the post-corona-era: a permanently changed media and entertainment consumption pattern. Data will need to confirm this (because hey, that's simply a big part of marketing and advertising now), but I expect to see a lot of opportunities in new media. A lot!

Ruben Ceuppens, Digital Partner – Havas Media Belgium

# **EXPERTS OPINIONS**

### About marketing & advertising

Marketing and advertising are not accessories, but essentials. Advertising is not about creativity. That creativity is a means to touch consumers.

What brings our business to the table is a thorough understanding of behavior, emotions and the craftsmanship to use just that in a refreshing and catchy way as the basis for communication between brands and people

Isabel Peeters, Managing Director (at-thetable BRAND STUDIO of DPG) - PUB

### About the explosion of gaming

Beyond the number of players, what is also striking is the explosion of time spent on free games.

The three most popular types of games at the moment are poker games like Monopoly Poker or Governor of Poker, social gaming like Habbo and more generally speaking, casual gaming

Vincent Delmotte, Managing Director Belgium (AZERION) - MM

### **OPPORTUNITIES**

- Flemish Gen YZ'ers turn to entertainment to boost their mood. Entertaining TV & Social Reality scores highly both on young & old.
- News is still the daily appointment with Frenchspeaking Belgians. Followed by locally produced Social & Reality TV.
- Belgians in general value local content more highly. Associate your brand to local content and build proximity with your target group.

# **ENTERTAINING REALITY & (LOCAL) MUSIC SCORE**

# At the expense of NEWS

Sunday is the weekly appointment for the Flemish population with Entertainement & Reality TV: *De Mol* (VIER), *Blind getrouwd* (VTM). There has been progressively a move away from news as Flemish Gen Y'ers and Z'ers stick to their favorite local TV soaps with a strong comeback of *Thuis* (EEN) & *Familie* (VTM) in the TOP 10 weekly programs (Live +7). Flemish artists covering each other's repertoire in *Liefde voor Muziek* (VTM) on Monday ranked in the TOP 5 weekly programs (Live +7) on both targets

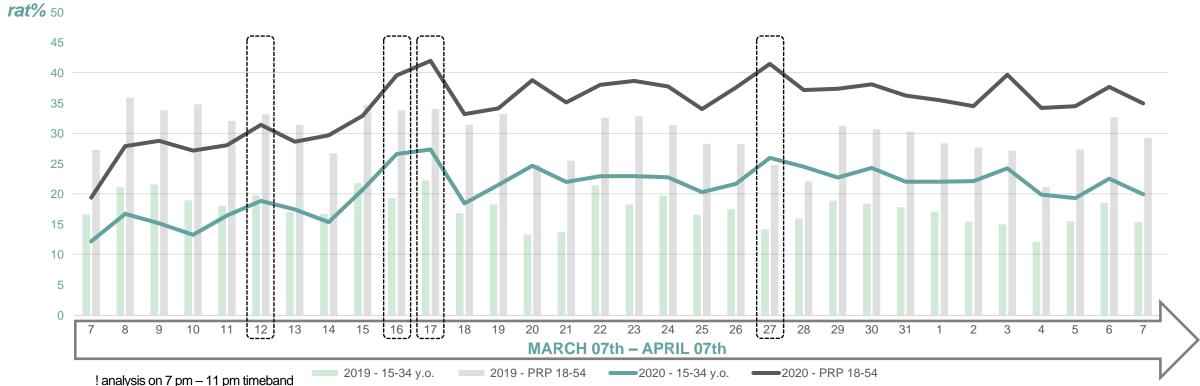

# **NEWS & ENTERTAINMENT RULE**

# Evening news is a daily appointment... but entertainment & social reality boost audiences

RTL dominates the TOP 10 weekly programs (Live +7) past week (March 30<sup>th</sup> – April 5<sup>th</sup>). On Monday March 30<sup>rd</sup>, cooking contest *Top Chef* achieved a 3<sup>rd</sup> place on target group 15-34 y.o. Next to *Mariés au premier regard*, social (reality) TV program *Enquêtes* made its way into the TOP despite the supremacy of evenig news. Only TF1's *Koh-Lanta* (TF1) was able to challenge IP and to grab a place into the TOP

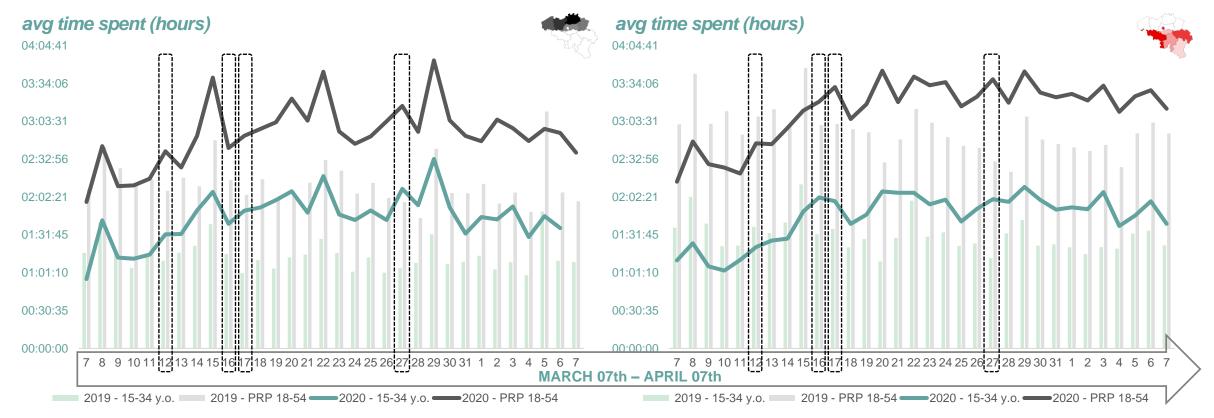

# TV VIEWING ON THE RISE!

Gen Y & Gen Z are not exceptions: they watch TV longer & more often, too

BRAND OPTIMISM

**Soubry**'s message is all about bringing people together and connecting them around a good meal.

Havas WW reinterpreted the original TV spot by rewinding the story, resulting in a message to ask people to hang on in isolated times.

Havas Media planned an additional TV and OLV wave with the right contextual media approach (around TV news, #Coronacrisis programme and publishers sites).

The #stayhome en #blijfinuwkot context gives new dimensions to the brand's conviviality & togetherness purpose.

Lockdown won't last forever. So let's stay hopeful and think about the future!

Soubry invites people to meet up again once the crisis will be behind us. #StayHome

### **OPPORTUNITIES**

- On average, Belgian spend more time on financial news but view more content on hyperlocal news sites. Take this into account to differentiate your creative approach
- It seems like the increase in available reach and inventory on FB & Instagram has reached a ceiling. Brands are cautiously coming back.

Par ailleurs, la compagnie de bus allemande **Flixbus** a décidé d'interrompre à **partir de ce mardi minuit** tous ses trajets au départ et à destination de l'Allemagne. Des perturbations sont également attendues en Belgique. Les connexions entre la Belgique et l'Allemagne, mais aussi la France et le Luxembourg, ne sont plus assurées.

### LE SOIR

# Non, il n'est pas interdit de circuler à deux à bord d'une voiture

Benoît Ramacker, porte-parole du Centre de crise, explique la règle. « Le covoiturage est permis s'il concerne une personne en plus du chauffeur, idéalement une personne à l'avant et l'autre à l'arrière. Ou plusieurs personnes mais qui vivent alors sous le même toit. » Reste qu'en matière de voyages motorisés comme ailleurs, le bon sens impose de limiter les déplacements au maximum, de restreindre les contacts, d'éviter toute promiscuité inutile, etc.

**Carpooling** is **allowed** for necessary and justified travel and only one person can be present in the car in addition to the driver

Informations relatives à l'épidémie de coronavirus (COVID-19)

Nous suivons de très près la situation liée au nouveau coronavirus Covid-19.

Nous vous demandons de respecter les recommandations officielles afin de vous protéger et de protéger les autres : ne vous déplacez pas sauf si c'est absolument nécessaire, selon les critères établis par le gouvernement. Si vous devez vous déplacer, remplissez l'attestation de déplacement dérogatoire. L'infraction à ces règles vous expose à une amende de 135 euros minimum. Vous trouverez toutes les informations et recommandations sur cette page.

BlaBlaCar et BlaBlaLines: Dans le contexte actuel et la nécessité de distanciation sociale, covoiturer n'est pas recommandé. BlaBlaCar et BlaBlaLines restent uniquement ouverts pour permettre à ceux qui ont absolument besoin de se déplacer de le faire, exceptionnellement sans frais de réservation sur BlaBlaCar. Afin de réduire les risques, chaque conducteur ne peut transporter qu'un seul passager sur BlaBlaCar. Dans tous les cas, vous ne devez vous déplacer que si c'est absolument nécessaire. Les passagers qui doivent annuler leur déplacement peuvent le faire gratuitement.

BlaBlaBus: Depuis le 17 mars et suivant les recommandations des gouvernements européens d'éviter tout déplacement non essentiel, nous devons suspendre jusqu'à nouvel ordre toutes les lignes BlaBlaBus en France et en Europe. Nous remboursons tous les passagers qui ne peuvent pas voyager: ils reçoivent automatiquement un bon d'achat valable I an et peuvent nous contacter pour demander un remboursement par virement s'ils préfèrent.

#### **OPPORTUNITIES**

#### **CREA & STRATEGY**

- With so many vendors refusing cash payments and transaction limits being raised, it is the perfect time to highlight cashless & digital solutions
- Many people still find it easier to control their finances with cash. Reassurance is mandatory

#### **MEDIA & STRATEGY**

- Trust is key. Newsbrands allow to combine an on- & off- approach to reach young & old
- With native, video or classical display, newsbrands offer ad solutions for every budget & creative material

## TAP AND GO IS THE WAY TO GO

# COVID-19 might turn out to be the catalyst that finally brings cashless payments fully into the mainstream

In Belgium, "in normal times", the law prohibits a merchant to refuse a payment in cash Today and for an indefinite period, merchants have the right to object on public health grounds

Contactless payments are fast, easy and safer as it reduces the risk of getting infected greatly when making a payment. That is why we have increased the limits for contactless card payments without entering your PIN code. Find out more in the link below #StaySafe

Banken verhogen de limieten van contactloos betalen zonder pincode

The transaction limit formerly set at 25 euros will now be 50 euros per transaction n the event of successive payments by contactless card and without Pin code, the cumulative limit will be raised to 100 euros

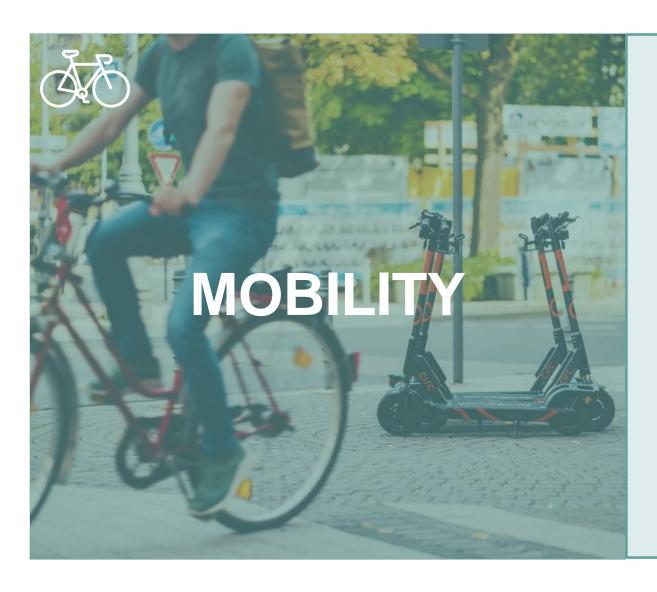

From April 14<sup>th</sup> - as part of current containment measures - the payment terminals currently in service will be gradually adapted to the new limits

31 MARS 2020 • FOOD-RETAIL

Depuis ce lundi 30 mars, une nouvelle application permet aux consommateurs de faire leurs courses en évitant le stress causé par le coronavirus. ShopSafe utilise la même technologie que Waze et permet de faire état des lieux des magasins proches de chez vous.

ShopSafe c'est une nouvelle application qui permet de faire ses courses le plus prudemment possible en ces temps qui courent. Elle permet de vérifier la disponibilité des produits, mais aussi de s'assurer de la fréquentation d'un magasin en temps réel.

En pratique: l'application vous montre tous les supermarchés de votre quartier. Chaque magasin affiche un code couleur en fonction de son affluence: calme, normal, agité, fort fréquenté. Lors de leurs visites, les utilisateurs sont priés d'indiquer la situation au magasin selon l'affluence. Ils peuvent également indiquer quels produits ne sont plus disponibles. Les employés du magasin peuvent aussi fournir des informations en temps réel via l'application et, par exemple, faire savoir lorsqu'un rayon a été rempil à nouveau. Ces données anonymes sont ensuite utilisées pour aider à estimer les visites en magasin à grande échelle.

This Easter, **Milka** creates a 100% brandexperience-at-home campaign. **FB & Instagram** provides tips and tricks on how to make Easter from home as magical as it is in normal times.

The brand teamed up with **Delhaize** to ship chocolate eggs to people facing poverty, so everyone could celebrate Easter.

#KeepTheMilkaMagicAlive

The moral is as important as a balanced diet, certainly during these difficult circumstances. That's why in collaboration with Delicata and Milka we decided to launch a large distribution of Easter eggs through CPAS/OCMW's (and Iriscare for Brussels) in the 18 biggest cities in Belgium. This distribution will take place in residential care centers and different reception centers for people in need starting today until the end of the week. That's 20 tonnes or 2 million small chocolate eggs to mend the hearts of up to 130.000 people who most need it in these difficult circumstances.

We organiseren elke eerste woensdag van de maand (om 15u) een gratis rondleiding in het museum. Vandaag zijn de deuren gesloten, maar onze gids Marianne Knop neemt je toch nog mee naar een topstuk uit de collectie. De verloren zoon (1563) van Jan Sanders van Hemessen.

In de parabel van de Verloren Zoon ligt de nadruk in het Evangelie op de vergevingsgezindheid van de vader tegenover zijn verkwistende zoon, als teken van Gods vergeving. In de beeldtraditie van de 16de eeuw gaat de voorkeur echter uit naar het op de voorgrond plaatsen van het losbandige en zondige gedrag van de zoon.
